MD KAMRUJJAMAN

OSINT ANALYST | CYBERSECURITY

Bangladesh • mdkamrujjaman.cse@gmail.com
PORTFOLIO | LINKEDIN | GITHUB | TRYHackMe

PROFILE

Computer Science and Engineering undergraduate at Dhaka University of Engineering & Technology (DUET), building practical experience in open-source intelligence, digital footprint research, online investigations, and cybersecurity. Focused on source verification, structured evidence collection, and clear, responsible reporting. Develops technical skills through personal projects, cybersecurity labs, and CTF participation.

EXPERIENCE

Freelance OSINT Research | Independent
Conduct public-source research for digital footprint and online investigation requests, including username research, social media analysis, source verification, and concise evidence-based reporting. Handle research within agreed scope and avoid disclosing client identities or confidential findings.

SELECTED PROJECTS

EProhori — Cyber Threat Intelligence Platform
Personal project exploring community reporting of suspicious URLs, SMS, phone numbers, and social media pages, with a phishing/smishing classification approach using TF-IDF and Logistic Regression.

Web Security Practice
Practice web security concepts in controlled learning environments through TryHackMe and PortSwigger Web Security Academy.

CORE SKILLS

OSINT: Digital footprint research · Username research · Social media analysis · Public-source verification · Evidence organization

Security: Web security fundamentals · XSS/IDOR concepts · Phishing and smishing awareness · Authorized lab testing

Technical: Python · PHP · JavaScript · HTML/CSS · MySQL · Linux · Git/GitHub · Burp Suite · Nmap · Wireshark

EDUCATION

B.Sc. Computer Science & Engineering — Dhaka University of Engineering & Technology (DUET)
2023–2027 (Expected)

Diploma in Engineering, Computer Technology — Dhaka Polytechnic Institute
2018–2023 | CGPA 3.70/4.00

SSC, Science — Nasirkot High School
2013–2018

TRAINING & PROFESSIONAL DEVELOPMENT

- Advanced OSINT Mastery — Red Team Leaders
- Cyber Security and Ethical Hacking, 60-hour training — IICT DUET
- TryHackMe learning paths/rooms: Jr Penetration Tester (Legacy), Cyber Security 101, Pre Security, Advent of Cyber 2025, loveatfirstbreach
- CompTIA Security+ (SY0-701) Cert Prep — Infosec / LinkedIn Learning (course completion, not the CompTIA certification)
- Cybersecurity Essentials — National Cyber Security Agency (Bangladesh)
- Introduction to Cybersecurity — Cisco Networking Academy
- Introduction to Cybersecurity Awareness — HP LIFE

CTF & PRACTICAL LEARNING

- BCS CTF 2026 — team rank reported as global #7 (verify before publishing).
- Participant — BUP CSE FEST 2026 CTF; EWU National RoboFest 2026 CTF.
